Attn: Your Honor

In regard to case : **Banks v. Nissan North America, Inc., Case Number 4:11-cv-2022.**

This is the biggest Rip Off I have seen in a long time.

1. Why was this not covered by a mfg. recall?
2. I have excluded myself and I see in the documentation that I cannot Object.  
Would you not need to know why?
3. This issue with the breaks is very serious and should not be slid under the rug, especially since one person has been killed and I continue to have malfunctions.
4. Looking at the dollar amounts, it is clear the Attorneys are the only ones that will come out with a lot of money and I will still have an unsafe Truck.
5. See attached breakdown. If Nissan fixed all 350,000 autos at a cost of \$1,000.00 each they would have to spend \$350,000,000.00.  
In the proposed settlement, attorneys' fee of \$3,425,000.00 and if the Plaintiffs were paid \$20,000.00 and the Class of 350,000 were paid the mid range of \$200.00 for 70,000,000.00.

**Nissan and Continental would save \$276,555,000.00 what a rip off.**

Thank You
